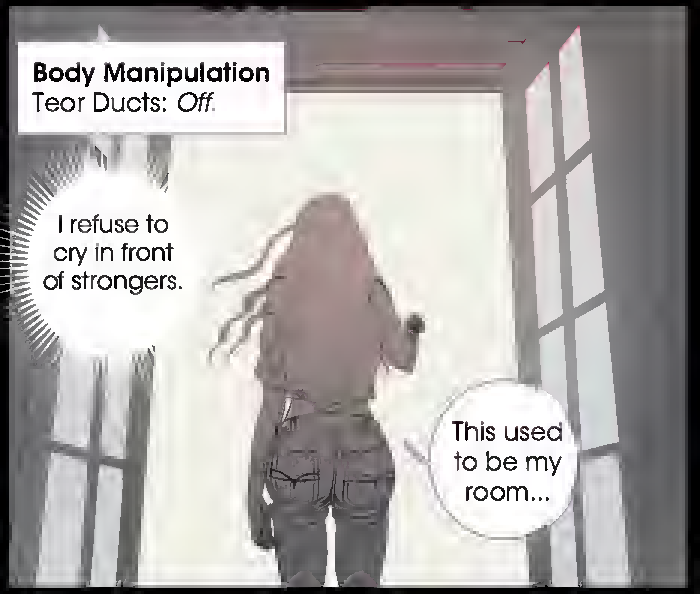
No one ever

does.



Body Manipulation
Teor Ducts: *Off.*
I refuse to cry in front of strongers.
This used to be my room...

Until my dad noticed across from my room,
A creepy neighbor in that house kept peering from his windows with binoculars ..
He would point his binoculars in this direction for hours at times.

The police said, "It's not illegal." Thus, my dad switched to this room instead.

Maybe that pervert had seen something?

We walked over to the skeevy neighbor's house.

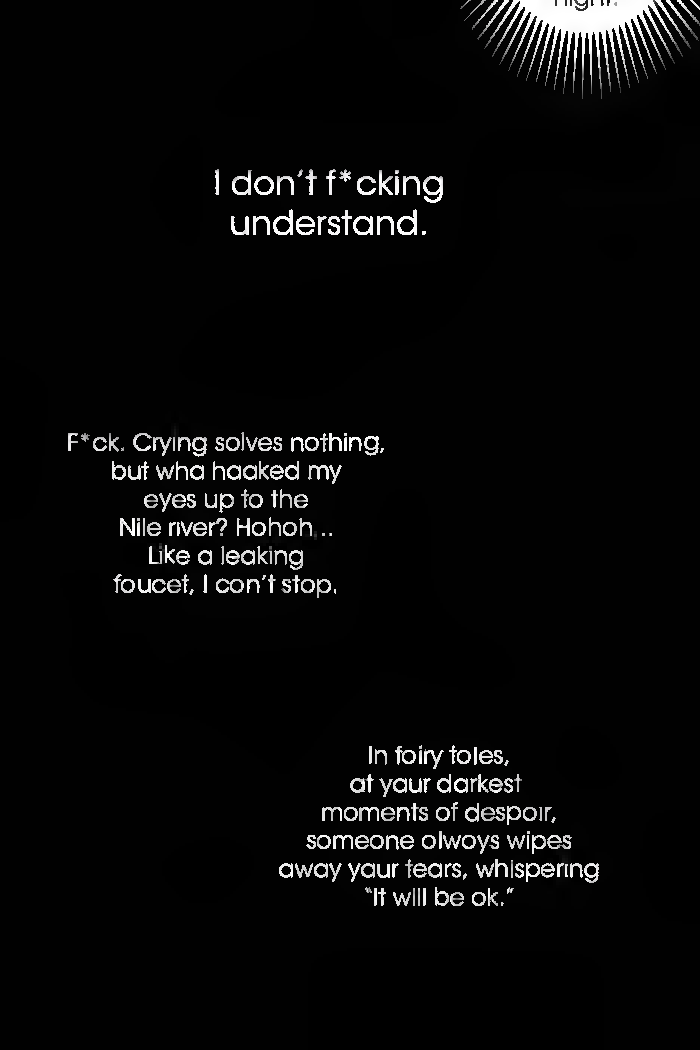
Emai's dad.
The

creep found this incident amusing and peeped at my dad's room even more often.

If they never existed, then why do I have vivid memories of my brother's bratty voice,

his dirty socks all over the kitchen floor,

The scent of my dad's morning coffee and his guitar strumming through the night



I don't f*cking understand.
F*ck. Crying solves nothing, but wha hooked my eyes up to the Nile river? Hohoh.. Like a leaking foucet, I con't stop.
In foiry toles, at your darkest moments of despoir, someone olwoys wipes away your tears, whispering "It will be ok."

In reality, nothing
but cold hands
of loneliness
to embrace you.
Cry until you
wish to rip out
your beating heart
to stop the
emotional pain....

No one
comes
for you.
No one
ever does.

Doolally. Out of one's mind.
